Geographical Comparisons.

The Mediterranean sea, if placed across North America, would make sea navigation from San Diego to Baltimore.

The Caspian sea would stretch from New York to St. Augustine and is as wide as from New York to Rochester.

Great Britain is about two-thirds the size of Hindustan, one-twelfth of China and one-twenty-fifth of the United States.

The gulf of Mexico is about ten times the size of Lake Superior and about as large as the sea of Kamchatka, bay of Bengal, China sea, Okhotsk or Japan. Lake Ontario would go in each of them more than fifty times.

Cock Stride—An Outdoor Game.

In this game the boys' caps are used. One player is chosen for the cock and then blindfolded and asked to stand up with his feet wide apart. About ten feet away from him the players stand on line and in turn throw their caps between his legs as far as they can throw. When every player has had a turn he runs forward and stands by his own cap. The cock then crawls on his hands and feet, still blindfolded, until he reaches a cap. The player whose cap he first touches becomes the object of chase, and the other players go running after him as hard as they can go. When he is caught he is brought back and is then made the cock, and so the game goes on.

Glass Bricks Popular.

German architects are making more and more use of glass bricks in cases where walls instead of windows are essential, while light must be provided.

W. I. C. NOTES

"What are you doing, my pretty maid?"

"I'm raking up trash, kind sir," she said.

"What is your aim, my pretty maid?"

"To clean up this town, kind sir," she said.

The Woman's Improvement Club is grateful to the Mayor and Board of Aldermen for their co-operation in our worthy movement. Want the good men of our community to kindly respect the sidewalk Ordinance? And when the garbage cans are placed we are sure the merchants will aid us in keeping alley ways and streets neat and tidy.

"Cleanliness is next to Godliness," and we trust that our little town may be brought to a realization of this fact.

In two Southern cities recently the school children were given trees to plant, as there were several thousand distributed—one can imagine the added beauty to homes and streets in a few years.

Has Newport ever observed "Arbor Day?" There are over 500 children in school, 500 shade and fruit trees planted by them would add much to the beauty and value of property.

Said a woman to me, "I've never owned a home and I have moved many times, but I always plant a rose-bush, a vine, and fruit tree, wherever home happens to be." Why don't you try that friend, and add your little gift to your little corner of the world?

I am told that there was in line at an art exhibition in Paris, France,

TESTED AND PROVEN

There Is a Heap of Solace in Being Able to Depend Upon a Well Earned Reputation.

For months Newport readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

L. A. Shults, of Newport, Tenn., says: "Doan's Kidney Pills cured me of kidney complaint more than two years ago and I am now absolutely free from this trouble. For several years I was bothered by pains in my left side, sometimes darting through the small of my back and often I was in such misery that I could not move. Thinking that my kidneys were the cause of my trouble, I decided to try Doan's Kidney Pills and I got a supply from the Minnis Drug Co. By the time I had finished the contents of two boxes, I was rid of my trouble." (Statement given January 6, 1909.)

A SECOND STATEMENT.

On December 17, 1910, when Mr. Shults was interviewed, he said: "I take pleasure in confirming my former statement, regarding Doan's Kidney Pills. They are a most effective medicine for kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

some years ago, a beautiful picture which attracted much attention and administration. This was a scene on the Pigeon River, not three miles from Newport.

Shall we be less appreciative? Nay rather let us awake to the possibilities at our doors and let our town become known for its loyal citizenship, ready to rally for its best good.

Mr. C. C. Holder has made wonderful transformation on his corner lot on Church Street.

The improvements he has made adds much to the appearance of the two handsome churches adjacent to his lot. Paint white-wash and brushes, are two great beautifiers in any community. Spring is a good time in which to use them.

CHATTANOOGANS

ENTERTAIN WELL

The Penitentiary Committee of which Representative Parrott is a member spent Saturday and Sunday in Chattanooga as the guest of the Chamber of Commerce.

They arrived there at 10 o'clock Saturday morning from Petros, where they had spent the week inspecting the branch prison and State mines, and were met by a party of representative citizens in automobiles and were taken at once to the Patten House where they were to be entertained during their stay.

Representative Parrott says that the Chattanoogaans are connoisseurs in the art of entertaining. They were shown over the city and taken to all the places of local and historic interest of which Chattanooga can boast not a few and every moment of their visit was enjoyed. They left there Sunday night in their special car for Nashville.
